

JC Pardo & Sons. Kettle 600-Gallon

Mfg: JC Pardo & Sons

Model: E526

Stock No. GICS158.13

Serial No. 4612

JC Pardo & Sons. Kettle 600-Gallon Hemi. Model E536. S/N 4612. (NB #2238), 1/2 jacket rated for 110 psi @ 344 °F. 64 in. Diameter x 58 in. deep. Hemispherical bottom w/ 6 in. flanged CBO, domed top w/ 18 in. manway & center flange mount for agitator (not included). Flanged mounting ring above jacket, all SS const (interior wall of jacket acid resistant nickel). Jacket has been modified to provide a side bottom discharge and bottom outside of jacket is dented - Interior is smooth. The integrity of the jacket may be compromised since it has been modified, but we know that it was used by Campbell soup after the modification.
