

## The Electron Machine Corp. Microprocessor Refractometer Unit Sensing Head

Mfg: The Electron Machine Corp.

Model: MPR-83/MPR-83R

Stock No: RCCB301A.13

Serial No:

The Electron Machine Corp. Microprocessor Refractometer Unit Sensing Head. Model MPR-83 / MPR-83R. This sensing head fits the MPR-83 series of microprocessor refractometers that are typically used to measure the refractive indexes of process fluids. Microprocessor refractometers may also be used as error indicators or as part of complete process control systems and can be inserted directly into process lines or vessels for measurements and controls. Sample of process fluids that can be measured: fructose, glycol, NaOH, black and weak liquors, and coatings. Inlet/Outlet: (1) ¼ in. straight pipe. Overall dimensions: 6 in. L x 5 in. W x 1 ft. 1 in. H. (ACN60).
